

S-Clad seating benches

SKU: CRSE-SBSC10x35

Description

Our seating bench is cleverly designed as it is compact, hygienic and robust and is ideal for changing rooms as a physical divide between clean and dirty areas or anywhere a seating bench is required with shoe storage on both sides.

Manufactured from 304L-grade stainless steel in a brushed dull polish finish.

The compartments below the bench provide convenient storage space with easy access, stainless steel adjustable feet, and a 250 kg payload.

Do you need to add extra corrosion resistance? Perhaps what you need is 316 grade stainless steel version, contact our team for more information.
