

Mini - Compressed Foam Swab

Cleanmo's CM-FS751, Kleentips Cleanroom Swab is constructed from compressed, 100 ppi (Z) open-cell polyurethane foam that is free from organic contaminants such as silicone, amides or phthalate esters. The foam is thermally bonded to the handle, thus, eliminating the use of contaminating adhesive or coatings. Laundered and packed under an ISO Class 5 Cleanroom, the foam exhibits low particulate and ionic content. It has excellent compatibility with most common solvents including acetone as well as excellent sorbency and solvent-holding capacity.

The foam head is compressed and possesses good firmness. The pointed, non-abrasive foam head is designed for cleaning small, slotted areas.

The swab handle is made from polypropylene. The handle is compact and will not contribute to particulate or organic contamination. Designed for general purpose cleaning, Cleanmo FS751 Cleanroom Swabs are the ideal swabs to use in the cleanroom.

Features:

- Free from silicone, amide and DOP
- Low non-volatile residue
- Low in both particles and ion content
- Excellent solvent-holding capacity
- Compatible with most common solvents
- No contaminating adhesives or coatings

Applications:

- Micro-mechanical cleaning
- Remove contamination from disk drives
- Effectively clean small, hard to reach areas with solvents such as IPA
- Remove flux residue and excess materials
- For general purpose cleaning

Kleentip Swab FS751

Kleentip Swab 751

Physical Characteristics

Property	Description / Typical Values
Head material	100 ppi (Z) Open-cell
Head Bond	Thermally bonded
Head width	3.7mm
Head thickness	3.7mm
Head length	15.0mm
Handle material	Polypropylene
Handle width	2.4mm
Handle Length	51.8 mm
Total Swab Length	66.8mm

Contamination Characteristics

Particles, Readily releasable

Particles 0.5 um	<6000 counts/swab
------------------	-------------------

Non-volatile Residue

DI Water	≤0.15 mg/swab
IPA	≤0.40 mg/swab

Ion Content

Chloride	≤0.90 ug/swab
Sulphate	≤0.40 ug/swab
Total anions	≤1.30 ug/swab

Organic Contamination

No detectable silicone oil, amide or DOP.

Packaging: 500 swabs /bag, 50bags/ctn

[Add.:Room 2A58/2A67,2/F, Baotong Building,Baoming 1 Road,BaoAn District,ShenZhen City,China](#)
